

Why not  
be in  
total  
control?

 **atomberg**  
"Why not?"

*In our new identity, an open lock doubles up as the letter 'A': A for Atomberg. It symbolises our ability to unlock solutions to invisible problems. The brand line sums up our approach.*

Atomberg is in the business of solving 'real' problems using smart technology.

How do we do it?

By asking questions. The right questions.

**“What would a typical day in our customers' lives be like?”**

**“How can we make their days easier?”**

Such questions help us focus on the things that really matter. Things like the latest technology, innovation and sustainability.

We then use these tools to design products with some amazing features. *Imagine a ceiling fan that can be controlled using a mobile phone, or one that consumes up to 65% less electricity!*

We don't just stop there. We make sure that the entire customer journey (*from installation to after-sales service*) is as delightful as our products.

But don't take our word for it. Ask over one million happy Atomberg customers!

So we have decided to keep asking newer questions... and finding newer answers!

**Which everyday problem do you want us to solve next?**

# REVOLUTIONARY BLDC TECHNOLOGY

## THE POWER BEHIND ATOMBERG FANS

BLDC stands for Brushless Direct Current. The motor runs because of an interaction between a single winding and strong permanent magnets. The commutation is deployed by smart electronics. Thanks to the BLDC inverter technology and our proprietary sensorless algorithm, Atomberg fans consume just 28W at full speed.

## ADVANTAGES

- Elimination of friction and associated power losses
- Proprietary algorithm with smart electronics drive that runs the motor efficiently
- Less noise and no motor heating

## Power consumption at each speed

The power consumption of the Atomberg Renesa+ fan varies with the speed at which it is set. It consumes less power than an LED bulb at speed 1.

	Speed	Wattage (W)	RPM
● ● ● ● ●	1	3	114
● ● ● ● ●	2	7	168
● ● ● ● ●	3	12	225
● ● ● ● ●	4	18	280
● ● ● ● ●	5	28	360
➤➤➤➤➤➤➤	Boost Speed	38	380

These specifications are for the Atomberg Renesa+ 1200 mm fan. The performance at each speed may vary for different models.
