BEAUTY GETS SMART

At Luminous, we believe great design is not just about how beautiful it looks but also about how smartly it works. This year, we are taking a leap ahead to revolutionize the world of fans by bringing energy efficiency to the fore. These fans are not just a delight to look at but will also save energy. Which means, while your electricity bill gets slashed, you also reduce your carbon footprint.

In addition, we are bringing forth a beautiful range of noiseless fans with refreshing designs. The unique aerodynamics of the blades enable silent operation to help you experience pin drop silence with easy relaxation.

Luminous Fans have been delighting consumers with innovation in design and technology. Our operations span more than 36 countries with an employee base of 6,000. More than 60,000 channel partners and millions of customers have trusted us over the years, and the tribe keeps growing.

SMART BY TECHNOLOGY

At Luminous, we are inspired by technology and latest innovations across the world. That is why all our fans are synonymous with technological advances in the category. Our innovative fans offer powerful performance to delight you. And the premium designs add to the beauty that inspires your home. Our new range of energy efficient fans is yet another step towards innovation. With smart technology integrated with already beautiful designs, our fans are truly a breath of fresh air.

SMART BY EFFICIENCY

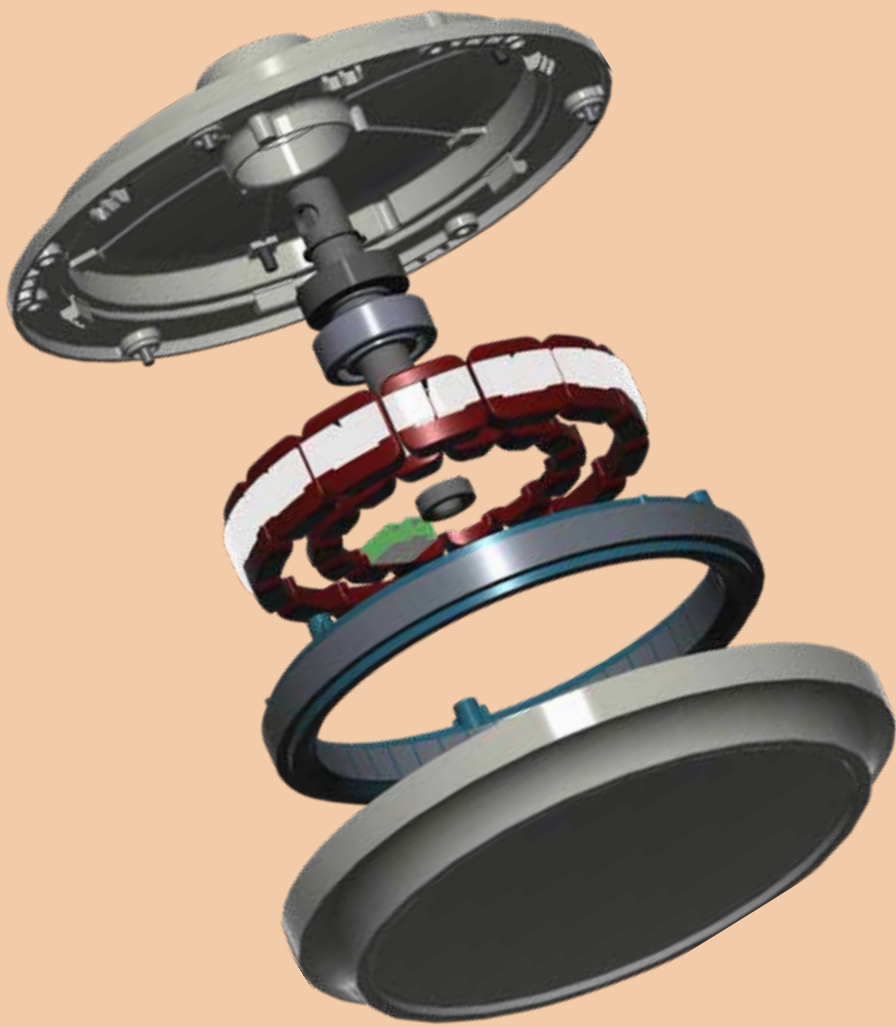

ENERGY EFFICIENT

At Luminous, we smartly identify the future needs of consumers by tracking the changes in social trends. Energy efficiency is turning out to be a major trend in view of the future of the planet. With the spirit of integrating efficiency into the Indian household, we have introduced revolutionary energy efficient fans into the market. It is an innovation that delights not just you but also the planet. With this we are heading into a sustainable future. A future that has a place of pride in the hearts of the consumers.

SMART BY INNOVATION

It is the simplest of innovations that take the most amount of effort. To bring something new at the bottom of the pyramid is a tough task to achieve. At Luminous, we are constantly striving to bring forth something exciting and edgy yet something that our customers will be delighted to embrace.

For the first time in the industry, we are introducing a patented UNICOG Motor with a new compact design which brings the sleekest motor in the category. What's more, our new Tech Aire' series with UNICOG motor is designed to provide Superior Air Delivery and Ultra High Speed performance with the convenience of blissful silence.

We at Luminous, truly believe that change calls for innovation and innovation leads to progress.

A WORLD OF AESTHETICS IN YOUR HOME

At Luminous, while being technology savvy, exploring newer geographies and cities is innate to our nature. We took inspiration from beautiful architecture and cutting edge technology and brought them together to imbibe your home with unique designs. Our fans embody the rich heritage of exquisite monuments from different cities across the world. These fans are not just an electrical device but a décor article to bring a piece of the world aesthetics to your home.

JAIPUR

The range reflects rich history and culture of the majestic city of Jaipur.

NEW YORK

A rare blend of modernism and flair that comes through in this theme inspired by the city that never sleeps.
